IPAF Operator Training

Internationally recognised, the IPAF Operator training course is to provide delegates with an understanding of the need for accident prevention, safe operational procedures, emergency descent operations and the responsibilities of the employers and employees.

The IPAF course covers the main aims of the Health & Safety at Work Act 1974 and associated regulations. As well as accident prevention, safe operational procedures, and emergency descent operations and gives an overview of the responsibilities of employers and employees.

Delegates who successfully complete the course will receive a digital IPAF Certificate and ePAL (Powered Access Licence) Card via IPAF's ePAL app. This certification is valid for 5 years. The ePAL card may be used to make sure that only trained operators can use mobile elevating work platforms (MEWPs) and mast climbing work platforms (MCWPs) on site.

If you require a physical IPAF PAL card and certificate, this can be arranged but will incur an additional cost.
